PARTNERS

Products

ALUMINIUM WINDOWS

Windows make a significant contribution to the style and character of your house. They are not only a decorative element, but also have a decisive influence on your quality of life within your own four walls. Windows affect the entire atmosphere of a room. The value of your house can be also increased through high-quality windows. Windows from Schüco, Elvial, Wicona or Aliplast continue to set international standards for energy-saving, security, convenience and design. The savings potential is enormous. Up to 80 % of energy can be saved as a result of efficient insulation.

GLASS FACADES (CURTAIN WALLS)

Facade glazing - is a modern solution for buildings to stand out against the background of other city buildings, it gives a solidity and unique appearance. Glass facade allows designers and architects to realize a unique concepts, forms, and to surprise with variety of approaches of buildings design. Façades are the central unit in the planning and design of building envelopes. Testeral offers a variety of systems, which allow even the most innovative façade concepts to be realized supremely well architecturally: from window façades with a perfect appearance to impressive structural glazing and high-tech synergy façades.

ALUMINIUM DOORS

Your entrance door is key to the overall impression your house makes and the focal point of your façade. The right combination of door frame, infill panel and handle is essential to a well-balanced overall impression. This is why Testeral provides a wide range of products all of which will satisfy your requirements in terms of design, fitting, quality and functionality.

ALUMINIUM RAILINGS (GLASS) SYSTEMS

Testeral can offer aluminium fences and balconies with a wide variety of designs, optimum system compatibility, individual design options and a high level of weather resistance. They are suitable for new buildings and existing residences. The balcony not only increases comfort in your home, it also raises the value of your property. Aluminium fencing should be strong, durable and well designed.

Products

BLINDS AND SHUTTERS

Shutters are ideal for use in domestic and residential properties, and equally suitable for commercial buildings and offices. Aesthetically pleasing and of lightweight construction, they also offer insulation against noise, cold and heat. Whether you select the manual operation system – simple to use and lightweight for ease of action, or our electrically operated models which can be controlled via a wall mounted switch or key fob, we're sure that we have the right shutter for you.

CONSERVATORIES (VERANDAS) - WINTER GARDENS

Absolute living comfort for a feeling of well-being every season. There are many reasons to build a conservatory. Practical reasons, because people simply need more space. Emotional reasons, because people would like to live closer to nature. Or aesthetic reasons, because an elegant extension adds a certain air to a home. From a financial perspective, a conservatory is also an investment that pays off. A high quality conservatory increases the value of a home. And a conservatory is also an intelligent buffer zone which helps you to save energy in both summer and winter.

STEEL WINDOWS AND DOORS

Thanks to its highly resistant material characteristics, steel is perfect for highly frequented buildings such as schools, hospitals, sportscentres and at all public buildings. Stainless steel adds a graceful look and reduces maintenance to a minimum. Janisol stainless steel is therefore the right choice for shopping malls, railway stations, banks and hotels.

ALUMINIUM AND CERAMIC CLADDINGS

Apart from the aesthetic point of view, there are a number of functional reasons what Alubond can provide for every home and building. It has both interior and exterior applications as a building material. It is commonly used as an exterior facade that forms the outer skin of a building. The application of the product is largely dependent on the architect design of the structure. Alubond is a good thermal insulator which can reduce the cost of heating in winter and cooling in summer.

FIRE PROOF WINDOWS AND DOORS

Aluminium fire resistant windows and doors range is available in classifications of EW 30, EI 30(minutes) and EI 60(minutes) in a wide range of inward and outward opening types, with a wide range of door locks to meet every kind of locking demand, including motorized hardware.

PERGOLA

Pergola gives you the opportunity to your outdoor space protect from the sun, rain and wind. It can be adapted to any architectural concept and satisfy all needs. Innovative shading system of unique design, with rotating louvers for shading outdoor and semi-open spaces, which offers both natural ventilation and protection from rain with the corresponding adjustment of the louvers. Aluminium pergolas are made from high quality materials.
